

## CONTENTS

<b>Crack Analysis Due to Fatigue Load During Subsea Pipeline Installation</b> <i>Franciscus Ventus Nagoya, Winarto</i> .....	132
<b>Occupational Health and Safety Analysis Using HIRA and AS/NZS 4360:2004 Standard at XYZ Shipyard</b> <i>Mohammad Danil Arifin, Fanny Octaviani</i> .....	145
<b>Analysis of FSW and TIG Aluminium 5052 Welded Joint Strength Due to The Effect of Working Temperature</b> <i>Hartono Yudo, Razin Hilmy Baihaqi, Untung Budiarto</i> .....	153
<b>Analysis on Deck Ship Conversion SPOB to LCT 234 GT Using Finite Element Method</b> <i>Amalia Ika Wulandari, Andi Mursid Nugraha Arifuddin, Nurul Huda</i> .....	163
<b>Patrol Ship Design to Guard the Natuna Seas</b> <i>Suardi, Amalia Ika Wulandari, Muhammad Uswah Pawara, Alamsyah, Taufik Hidayat</i> .....	171
<b>Power Matrix of Spherical and Conical Wavestar Geometry with Linear and Circular Arrangement</b> <i>Sara Jahangiri, Hassan Ghassemi, Hamid Reza Ghafari, Parviz Ghadimi</i> .....	180
<b>Study Analysis of TSS Distribution Around Teluk Lamong Area Using Remote Sensing and Numerical Modeling Approach</b> <i>Muhammad Ilham Maulana, Widi Agus Pratikto, Suntoyo</i> .....	187
