**CONTENTS**

<b>Analysis of the Suppression Device as Vortex Induced Vibration (VIV) Reducer on Free Span using Finite Element Method</b>	
<i>Dwi Priyanta, Anang Abdullah.....</i>	1
<b>Technical Analysis of Influence of Special Treatment on Water Ballast Treatment using Active Carbon on Vessel and Environment</b>	
<i>Aguk Zuhdi M. Fathallah, Fachrul Hidayat Husein.....</i>	6
<b>Evacuation Analysis of 1200 GT Passenger Ship in Case of Fire using Agent-Based Modeling Approach</b>	
<i>Muhammad Badrus Zaman, Dwi Priyanta, Ilham Afrianza.....</i>	9
<b>Automatic Stacking Crane Prototype using Microcontroller Arduino Mega 2560</b>	
<i>Sardono Sarwito, Indra Ranu Kusuma, Fajar Andik Cahyono.....</i>	12
<b>Design of Automatic Transfer Switch ACOS with Human Machine Interface Monitoring System in Shipboard Application</b>	
<i>Sardono Sarwito, Indra Ranu Kusuma, Boy Hendra Waramory.....</i>	20
<b>Study on Safety of Navigation Using Automatic Identification System for Marine Traffic area Case Study: Malacca Straits</b>	
<i>Muhammad Badrus Zaman.....</i>	26
<b>Analysis and Optimization of Hydrofoil Supported Catamaran (Hysucat) Size 25 Meter based on CFD Method</b>	
<i>Hari Prastowo, Agoes Santoso, Andre Arya B.....</i>	32
