

Contents

Volume 1 Number 2 November 2017

International Journal of (IJOCE) Offshore and Coastal Engineering

- The Influence of Slopes to the Stability of Stones in front of Seawall** 50
Haryo D. Armono, Danny Indra Setyawan and Muhammad Zikra
- Analysis of Configuration of Stinger Angle with Depth Variation During Installation On Pipe Diameter 20" in Banyu Urip, Bojonegoro** 56
Imam Rochani, Juniavi Dini Kumala Putri and Handayanu
- Analysis of the Effect of Time Voltage and Distortion Change on Welding Structure Pressure Vessels PT. Petrokimia Gresik with Variation Welding Sequence by Using Finite Element Method** 64
Nur Syahroni, Bayu Iman Fatkurokhim and Handayanu
- The Study of Tandem Offloading Performance and Operability on The Cylindrical Hull FPSO Sevan Stabilized Platform with Variation in Mooring System Configuration** 70
Eko Budi Djatmiko, Jousie Rebecca and Murdjito
- Impact of Reclamation Development on Sedimentation and Current Pattern in East Coast Surabaya (Pamurbaya)** 79
Suntoyo, Moh. Iqbal Hidayah and Hasan Ikhwan
- Preliminary Modeling for Assessing Tidal Stream Energy Potential at the Alas Strait, Indonesia** 86
Mukhtasor, Luli Bangkit Sugito and Sujantoko
- Risk Analysis on Leakage Failures of Pipelines Using Hybrid Risk Analysis Method** 94
Daniel M. Rosyid, Bassam Muhammad Drehem and Agro Wisudawan
- Analytical Study of Vertical and Lateral Buckling on Pipeline Using Hobbs Method** 100
Yoyok S Hadiwidodo, Muhammad M Romadhoni and Herman Pratikno
