- | | |
|---|----|
| Local Stress Analysis in the Chain Link of Mooring Line That Had Diameter Degradation
<i>Rafliansyah Azhar Putera, Eko Budi Djatmiko, and Murdjito</i> | 1 |
| Analysis of the Effect of Abrasive Material and Polyurethane Coating Thickness Variations on ASTM A36 Steel Towards Corrosion Rate in Sea Water Environment
<i>Herman Pratikno, Felita Widya Hapsari, and Wimala Lalitya Dhanista</i> | 10 |
| Influence Analysis of Shielding Gas Flow Rate and Purity Level Variation on GMAW Welding Process to Microstructure of Aluminium 5083
<i>Nur Syahroni, Sadewa Sechan Winando, and Yeyes Mulyadi</i> | 18 |
| Experimental & Numerical Studies of Vertical Motion Acceleration Analysis in Helideck on a Catamaran Floating Crane
<i>Yunan Setiawan Suwandono, Eko Budi Djatmiko, Murdjito, and Abdul Ghofur</i> | 23 |
| The Effect Analysis of Coating Thickness Variation and Mixture Composition of Magnesium – Flake Glass on Epoxy Coating on Abrasive Resistance, Adhesion Strength, and Prediction of Corrosion Rate of ASTM A36 Steel Plate
<i>Herman Pratikno, Yudiardana Tridantoko Susarno, and Hasan Ikhwani</i> | 29 |
| Experimental Study and Numerical Analysis of Floating Crane Catamaran Mooring Tension in Intact and Damage Conditions Using Time-Domain Approach
<i>Mochamad Hanif Rafi'i, Eko Budi Djatmiko, Murdjito, and Erdina Arianti</i> | 36 |
