

# JOURNAL of Infrastructure & Facility Asset Management

**Volume 7, Special Issue 2, January 2025**

(e)ISSN 2656-8896      (p)ISSN 2656-890X

**Handling Selection of Compression And Stability Problems of Embankment 01-14  
Based on The Thickness of Soft Soil Layer Below (Case Study: Rengat –  
Pekanbaru Toll Road Project Sta. 176+775 – Sta. 176+975)**

*Pandu Hermawan, Noor Endah Mochtar, Indrasurya B. Mochtar, & Mahar Muliawan*

**Slope Stability Analysis Under Dry-Wetting Cycle Conditions (Case Study: 15-28  
Landslide Countermeasure of Batas Pidie/Aceh Besar - Batas Kota Sigli)**

*Zulfadhl, Trihanyndio Rendy Satrya, Ria Asih Aryani Soemitro & Fikri Afzal*

**Alternative Planning Slope Stabilization On Roadway Case Study : 29-40  
Landslide On Tabone-Polewali Road Section KM 168+790 to 168+820**

*Ismi Istiqamah, Mohamad Khoiri, Mahendra Andiek Maulana & Bambang S. Razak*

**Study of The Behavior of Abutment Piled Foundation due to Nearby Staged 41-56  
Embankment (Case Study: Kali Kandang Bridge on The North Ring Road  
of Lamongan)**

*Azkiya Nabila, Trihanyndio Rendy Satrya, Ria Asih Aryani Soemitro, Sifa Udukha*

**Behaviour Study of Abutment Foundation Pile on Lightweight 57-72  
Embankment Oprit (Case Study: Kali Otek Bridge – Lamongan North  
Ring Road Construction Package Section 2)**

*Nila Wahyu Pertiwi, Ria Asih Aryani Soemitro, Trihanyndio Rendy Satrya, Sifa' Udukha*
